Performance anywhere you need it

The HP Slimline s5-1120 offers a powerful PC where space is at a premium. Perfect for a small space or dorm room, it can handle all your computing needs, like e-mail, word processing and more.[10] And the Slimline is flexible, so you can easily add or upgrade features and functions. The all-new HP Pavilion Slimline series offers an elegant, sophisticated look and feel that fits almost any environment.

- Enjoy DVD movies and watch your favorite programs online in your living room
- Look up recipes and listen to music while cooking in your kitchen
- Handle all your essential computing needs and be more productive in your home office

Maximize your desktop space

The HP Pavilion series has all the power and performance you need to multitask with ease. And with HP Multi-Display Capable technology to support multiple monitors, you'll have more space to work. Compare documents side by side. Quickly drag content from one application to the next. Stream digital entertainment to one monitor while you work on the other. It's easy with HP.

HP Premier Experience

The HP Premier Experience focuses on the things that matter most: a simplified Start Menu, less interruptions, and exclusive and convenient innovations like HP LinkUp. Speed is a priority when you are booting up, shutting down, going to or resuming from sleep. It's cleaner, faster, intuitive, and only on HP.

HP LinkUp software lets you access the content and programs on your notebook[37] from your HP desktop PC[38] —without file mix-ups or complex synchronization.

- All of your files and applications stay up to date on your notebook[37], while you access them from your desktop[38].
- No cables or docking stations required—once you install the free client software on your notebook PC[37], it links up with your HP desktop[38] through your wireless home network.

Fine-tuned Windows 7 experience.

- Simplified Start Menu to find and launch applications faster with improved organization in Windows 7.
- Turbocharge your Windows 7 experience with quicker boot-up, shutdown, sleep, and resume times.
- Reduced notifications and pop-ups so that you can concentrate on the tasks at hand.
